

Influence in Action Survey

Hi, you haven't met us yet, but you will soon!!!

This survey will help bring a program to your school that encourages students to think critically about information, to be leaders, and to get involved in activities that are good for them and for others.

We, at The Students Commission and the Centre of Excellence for Youth Engagement, are asking you to name students who you respect and have an impact on you.

From those you name, we will choose a representative group of students to come and learn about the program. Then they will bring the program to your school.

We'd also like to ask you a very short quiz about some of the subjects the students will learn about to see what you know now. At the end of the program, we'd like to ask you these questions again.

All your answers are confidential; no one at the school will know how you answered. This sheet with your name on it will be separated from the survey before you start answering and put into a sealed envelope. You will see this happen.

You do not have to answer any questions that you don't want to. It's a really short survey. We promise. Thanks so much for listening, reading and writing. We appreciate it!!!!
