

Wash Your Hands (Lyrics)

In 1843 a doc named Holmes
Became worried about Baby Mama's who got sick in Hospital Domes

After a quick investigation
He saw without hesitation
That docs' dirty hands were the reason for this manifestation!!!

With a simple wash with soap
Rates of disease and death moped
And women were given a brand new hope!

PROBLEM SOLVED RIGHT!!!
CHECK IT!!! NOT SO FAST!!!

Poor Doc Holmes, they all thought he was a joke!!!
Washing hands in water made other docs choke!!!

Their attitudes and beliefs
Just couldn't be breached!
It took 40 years for all them docs to see relief!!!

It's crazy to think!!!
That putting your hands in the sink!!!
Was once looked down upon by doctors and shrinks!!!

Who would have known?
Now that hand washing has grown!!!
That the thought of washing with water made everyone moan!!!

It just goes to show!
When the knowledge from science grows!
It can completely turn upside down what we think we know!!!!
